

Dometic deploys GlobalLink integrations

for Sitecore and inRiver, covering 24 languages and reducing turnaround times 50%

Dometic's mission is to make mobile living easy. Millions of motor home users, boat owners, truck drivers, and campers in over 100 countries are utilizing Dometic's mobile living solutions as they explore the world.

With GlobalLink integrations for Sitecore and inRiver, Dometic is able to continuously update their content in 24 languages while cutting turnaround times in half.

With Translations.com's Sitecore and inRiver connectors, our team can now handle product content translations without copy pasting and e-mailing. As we have almost daily updates into 24 languages, this is a key solution for us and has helped reduce the effort of coordinating and over-all time it takes to update language versions by 50%
